

Micellized Vitamin A

Highly concentrated liquid micelle form

Micellized Vitamin A combines two forms of vitamin A into tiny droplets that are easily absorbed to support the spectrum of benefits associated with vitamin A.†

Benefits of Micellized Vitamin A:

- **Broad spectrum of actions in the body:** Vitamin A is an important nutrient for vision, immune system function, bone and cartilage development, and the maintenance and repair of skin cells.† Vitamin A is also a powerful antioxidant, protecting cells all over the body against the effects of oxidation due to stress, environmental pollutants, and more.†
- **Highly bioavailable:** Vitamin A is a fat-soluble nutrient, meaning it requires fat to be absorbed and stored in the body. Compared with many ordinary vitamin A supplements and vitamin A-containing multivitamins, Micellized Vitamin A suspends vitamin A in extremely small, water-soluble droplets, called micelles. These micelles are a special type of bubble with a fat-loving inside and water-loving outside. In these micellized packages, vitamin A is easily absorbed from the digestive tract.†
- **Easy to administer:** The dropper-style delivery method of Micellized Vitamin A allows vitamin A to be conveniently mixed with foods or liquids and makes it easy to get the right amount.† Each drop of Micellized Vitamin A provides 1,500 mcg RAE as vitamin A palmitate and 7 mcg RAE as beta-carotene (a phytonutrient with vitamin A activity).

Micellized Vitamin A is free of the following common allergens: milk/casein, eggs, fish, shellfish, tree nuts, peanuts, wheat, gluten, and soybeans. Contains no artificial colors, flavors, or preservatives.

Formula:

Supplement Facts		
Serving Size 1 Drop • Servings Per Container 600		
Amount Per Drop	% Daily Value	
Vitamin A (99.5% (1,500 mcg RAE) as vitamin A palmitate and 0.5% (7 mcg RAE) as beta-carotene)	1,507 mcg RAE	167%

Other ingredients: Glycerin, purified water, polyethoxylated castor oil, citric acid, and potassium sorbate.

V060-01 1 fluid oz. (30 mL)

Suggested use: 1 drop daily with food or beverage or as directed by a healthcare professional. **Caution:** If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Keep out of reach of children.
